For ever new premiums at Willoughby and 10 Stores.

POWNAI PROVING TO BE BEST DEER TOWN IN COUNTY

Twelve Have Been Killed During First Four Days

STAMFORD GIRL GETS GOOD BUCK

Hunters Are Not Exhibiting Heads to Wardens as Required By Law.

Conditions for deer hunting have improved with the coming of the snow in the mountains and cooler weather. There are already two deer hanging at the Schwartz market and it is probable that a number of the hunters will return with their game tomorrow night. Judging from the success of the sportsmen in the other towns of the county those from Bennington who are in camp at remote points in the mountains will have some deer stories to tell when they return for Sunday.

Twelve deer have been killed in the town of Pownal but only one has been officially reported. Five have been shot in Shattbury hollow and a good number in Arlington. Judging from the hills actually known it is safe to presume that the record for the season will be unusually large.

GIRL SHOT BUCK

Stamford School Girl Fired But One Shot.

North Adams, Nov. 19.—Eight more deer were killed in western Franklin and northern Berkshire yesterday according to reports received by the game warden at North Adams last night. Those reporting killings yesterday were: Charles Tuttle of Rowe, a doe in the town of Hawley; Fred Pike of Charlemont, a doe in Charlemont; Fred Schrick of Shelburne Falls; Henry Phelps of Savoy, a doe in the town of Hawley; Henry Cate of North Adams, a doe in Clarksville; William Howe of Pittsfield, a doe in Cheshire; and William Gardner of Williamstown, a doe in Williamstown.

Miss Lillian Cole, a 14-year old school girl of Stamford, Vt., killed a large buck on the Morrissey farm in that town yesterday morning. The young woman, although inexperienced in hunting, proved herself to be an expert shot and brought down the 150-pound deer with one shot.

DEER HUNTERS NEGLIGENT

Are Not Exhibiting Heads to Wardens as Required by Law.

EXECUTE TWENTY FOUR HINDUS IN INDIA

Twenty Seven More Sentenced to Life Imprisonment

CHARGED WITH CONSPIRACY

Mutinous Agitation Against British Rule Believed to Have Originated on Pacific Coast.

Washington, Nov. 19.—Mail advices reaching here yesterday from India told of the execution of 24 Hindus and the sentence of 27 others to servitude for life by a governmental commission at Lahore, and described the activities against the British government among certain elements in the Indian population more extensive than has been officially admitted.

According to the reports the Lahore affair was only one of several others that recently have been brought to an issue in India with similar results. All the prosecutions being based upon charges of anarchy, mutiny and insubordination. The native press, while speaking of the loyalty with which India responded to the call by the British government upon the natives for military service, also has referred in terms of condemnation to the activities of the disaffected elements in the population, which in some quarters are ascribed to German machinations.

The general tendency, however, is to credit the mutinous agitation to work of a band of conspirators alleged to have been located on the Pacific slope of America for several years and actively engaged in a secret propaganda. These conspirators are declared to have dispatched emissaries to India who have been stirring up antagonism to British rule there.

The most disquieting feature of the situation, according to the report, is the uncertainty of the extent to which the native troops have been tampered with. In the Punjab and in Bengal, between the middle of June and the middle of September 17 Indian cavalrymen were sentenced to death for mutiny, making 71 others were convicted of other offenses.

FEAR ANCONA'S FATE

No Italian Liners to Sail From New York.

Sailings of all ships of the Italian and allied lines from New York for foreign ports have been canceled until further notice. This was announced at New York yesterday by Hartfield, Solari & Co., agents of the Italian line. The sinking of the Ancona, which belonged to the Italian line, and the submarine menace to other ships are believed to have caused the cancellation of the sailings.

TO DRIVE BULGARS FROM POSITION ON THE VARDAR

Anglo-French Attempt to Check Advance Into Southern Serbia

SERBS QUIT BABUNA PASS

Army in This Vicinity in Danger of Being Cut Off and Captured.

Athens, Nov. 19.—To distract the Bulgarians movement in southern Serbia, the French and British forces have made an attack today upon the Bulgars on the Vardar river. The Anglo-French situation is reported to be satisfactory.

London, Nov. 19.—Judging from the size of the Bulgarian forces rushing from Tetovo southward and from the initial success of their new turning movement, which has changed entirely the military situation in southern Serbia, Monastir is in distinct danger. Not only has the Bulgarian maneuver necessitated abandonment by the Serbians of their positions at Babuna pass, but the Serbian forces which have been holding this entire region are now in peril of being surrounded and cut off by the Bulgarians advancing southward from Krushevo. Little is known of the Serbian situation in the north except that determined resistance is still being offered by the Serbians against both Germans and Bulgarians, who have made no fresh gains of consequence.

In south-eastern Serbia successes for the French and British are reported. The Bulgarians are said to have been compelled to retreat on the Vardar front and to have sustained a check at the hands of the British in the Radovo section.

Important successes for both the French and British forces in Serbia are reported by the Athens correspondent of the Havas agency of Paris. According to this information, which the correspondent says is unofficial, the Bulgarians have lost the town of Kasturino to the French and have been defeated by the British on the Vlatovovo-Radovo front.

The correspondent, whose dispatch was filed Wednesday, adds that according to the latest news received by Athens newspapers, the French won a striking victory over the Bulgarians on the Tithirkovo-Schevo-Krushevo front. The battle was waged for two days. The French were greatly outnumbered but used their three-inch guns with great effect. The Bulgarians are said to have sustained such heavy losses that they gave up the fight and retired northward to the right bank of the Vardar river.

Serbia's position is growing steadily worse, according to information sent to London by the Reuters correspondent of Athens. The population of Monastir is fleeing to Florina, 16 miles south across the Greek border and Salonica. Perlepe is expected to fall as soon as Bulgarian forces arrive there from Tetovo. The danger of being surrounded by Bulgars coming from the west toward Perlepe up set the Serbian defense at Babuna pass. Desperate fighting is expected around Perlepe and to the south of that point.

A Bulgarian force is advancing from Krushevo to cut off the Serbian line of retreat toward Kresna and the Albanian frontier. On the northern front the Serbs are fighting desperately contesting every inch of territory. The Reuters correspondent declares that while his information is unofficial, the Serbian legation admits that it is probably correct.

Five thousand Serbs who have been defending Babuna pass against the attacks of 20,000 Bulgars have been forced to abandon their positions and are retreating on Prilep, according to advices reaching Athens from Salonica. The Athenae's Salonica correspondent confirms the recapture of Tetovo by the Bulgars, a victory regarded as of much importance because it may result in the cutting of lateral communications of the Serbian front.

Telegraphing from Athens under date of Wednesday, the correspondent of the Havas news agency of Paris says: "The situation for the Serbians is becoming worse. The fall of Prilep is imminent. The Serbs have begun to retreat toward Ochrida. The danger of the Serbians defending Babuna pass, being enveloped by the Bulgarians from the west,

"SHIRKSHIRE" HAS BENNINGTON IN ITS EMBRACE

Fierce Gale and Driving Rain Drives Folks to Cover

SCHOOLS ARE NOT IN SESSION

Village Shade Trees and Public Service Wires Are Hard Hit By the Wild Wind.

The "shirkshire" which has prevailed today is the worst in many months and it seems probable that when the reports are all in considerable damage will be reported. So far as The Banner knows there is no instrument in town for recording the velocity of the wind, but the severity of the gale was so great that the air for hours has been full of flying limbs and other debris.

The wind changed during the night to the southeast and east and when the weather was got up this morning and heard the sullen roar from the mountains they knew that the town was in for an old-fashioned "shirkshire."

The gale has been accompanied by rain a part of the time, but not as much as usual up to 2 o'clock. This afternoon at 1:30 the sun broke through the clouds and for a few minutes there was a brilliant rainbow arched from Bald mountain to Harum hill.

Many shade and other trees have been blown down in whole or in part and the telephone and electric light wires are suffering some damage the extent of which will not be computed until the gale abates.

Owing to the wind Principal Mabrey kept the high school until 12:40 today and then dismissed the pupils until Monday morning. The seventh ward schools were in session until one o'clock and were then dismissed. At the grade building on School street the teachers were present this afternoon, but very few pupils save those from outside the village, who brought their dinner.

The flag staff and weather vane on the graded school building were blown off and landed in the school yard, but fortunately when there were no children in the yard.

The girl clerks at some of the stores were not able to get back to their work this afternoon but it made no great difference as customers were few and far between. At the mills, also, the girls living at any distance did not all get back for the afternoon.

Some fear is expressed as to the safety of the scores of deer hunters in the woods and mountains of the county. Practically all the camps are in sheltered places and as safe as home, but in the woods falling trees and flying limbs will endanger those who venture abroad.

HAVE KILLED 762 DEER

About 450 More Than in First Four Days Last Year.

Lyndonville, Nov. 19.—At the office of John W. Titcomb, state fish and game commissioner, the number of deer reported killed up to yesterday is 762 of which 404 are bucks and 358 does. The summary by counties is this:

	Bucks	Does
Addison	15	14
Bennington	11	9
Caledonia	19	13
Chittenden	12	11
Essex	11	6
Franklin	5	8
Grand Isle	0	0
Lamoille	25	26
Orange	26	21
Orleans	16	9
Rutland	30	35
Washington	74	91
Windham	59	80
Windsor	61	35

This number is some 450 in excess of the number reported during the corresponding period last year.

NORTH BENNINGTON

Mr. and Mrs. W. R. Mattison have returned home from a week's visit in Boston.

caused the abandonment of the pass. "Desperate fighting is expected around Prilep and south of that city. The Bulgarians are advancing toward Krushevo with the object of cutting off the Serbian retreat toward Albania. The Serbians are fighting with the utmost tenacity along the northern front, disputing the advance of the invaders foot by foot."

The correspondent adds that the foregoing news is considered correct by the Serbian legation at Athens.

BRUSH AND MIRROR FACTORY MADE BIG BLAZE

Plant of Arthur S. Payne Destroyed This Morning

FIFTY MEN THROWN OUT OF WORK

Insurance Will Not Cover Heavy Loss Much of Which was in Finished Stock.

About 50 men were thrown out of work between 2 o'clock and 6 o'clock this morning when the brush and mirror plant of Arthur S. Payne at the corner of Main and Branch streets burned to the ground with a loss of all the buildings and equipment excepting the dry kilns and boiler house on the northeast corner.

The origin of the fire is unknown. There were four men employed in the shaping rooms on the second floor last night and they report that the flames were first noted on that floor near the roof of the main building which has been standing a number of years and was of wood, extremely inflammable. They were fanned by a high wind and the roof was soon beyond saving. Lee C. Warner, who lives two doors south of the property on Branch street was aroused and an alarm was sounded from Box 14. Mr. Warner states that considering the time in the morning the firemen were prompt in their response, although the promise of a serious fire caused the ringing of an almost continuous alarm for over half an hour. The mill whistles took up the alarm and the spectacular size of the fire drew a large crowd.

The conflagration lasted four hours, the release sounding about 6:30, but four firemen were delegated to keep a stream on the ruins until after 10 o'clock this morning. The buildings containing the machinery, offices and stock-rooms were totally razed to the ground, a mass of charred timbers. At the start of the fire the intense heat fired the cornices and wood-work of the adjacent dry kilns and boiler-room but prompt action in closing the fire-doors, and two strong streams of water, combined with galvanized iron sheeting which covers the building, saved the structure.

Mr. Payne stated this morning that he could not yet estimate the damage. The greatest loss comes in raw and manufactured stock. The business had orders on hand to last it well into the winter. Mr. Payne reporting that it was better than at any time for the past two years. He was working two shifts, the day shift often laboring until 10 o'clock each evening to fill Christmas orders for mirrors and brushes. Half a dozen men were then kept in the shaping rooms until 7 the following morning. The buildings were owned by J. Dukas of New York and were leased by Mr. Payne. Prior to Mr. Payne's purchase, the plant had been utilized by George S. Clark as a brush factory.

The plant suffered a small fire loss on the noon of June 8, of this year, which was extinguished before much damage had been done. Following this fire extensive repairs were made and another building added, which was wholly destroyed by the fire this morning.

There is considerable insurance on the property but not enough to cover the loss. All telephone and electric wires to the plant were cut or melted in the intense heat and two cross-beams burned from a nearby telephone pole, necessitating some expense to the telephone and electric companies. Several hundred piles of cut wood which were located about the yard were saved, but none of the machinery can be used again.

Mr. Payne could not say this morning whether he was to rebuild the property or what his plans were until he had secured an accurate total of his loss. It is considered extraordinary that the fire did not spread to property surrounding, as there are several houses within a few rods and the high wind lifted lighted embers and carried them for hundreds of feet. Seven streams of water, however, and pluck work by the firemen kept the fire loss at a minimum considering the headway which the flames had secured before the apparatus could arrive.

WEATHER FORECAST

For eastern New York and western Vermont, rain and colder tonight. Saturday fair and colder.

WILSON'S APPEAL FAILS TO SAVE HILLSTROM

I. W. W. Leader Executed at Salt Lake City Today

SHOT THROUGH THE HEART

Pleadings of Swedish Government and Intercessions of President Avail Nothing.

Salt Lake City, Utah, Nov. 19.—Shot through the heart while blindfolded and sitting in a chair, Joseph Hillstrom, the young I. W. W. leader was legally executed today for the murder of two men for the purpose of robbery in January, 1914.

The pleadings of the Swedish government and the intercessions of President Wilson on two occasions were of no avail. Hillstrom's unsupported defence was that he was at a married woman's house at the time the murders were committed. The woman did not appear in his behalf.

BEGINNER'S DANCING CLASS

Starts Tomorrow Afternoon for Boys and Girls at Library Hall.

The class in social dancing which is to start tomorrow afternoon at Library hall, is being offered especially for school children under 16 years of age and beginners. The lessons will be carefully graded, starting with the fundamental steps in both the modern and round dances. The class will be continued every other Saturday afternoon throughout the winter. Tomorrow afternoon the waltz and new steps in the one step will be taught. The merely nominal admission price of five cents per lesson is being asked. Class will start at 3 o'clock.
